

Nina Dwi Ariani

Web Developer

ninadwiar@gmail.com | +62 822-6854-8829 | Padang, Sumatera Barat

Computer Science Education graduate from Universitas Negeri Padang with hands-on experience building responsive, database-driven web applications using PHP, Laravel, MySQL, JavaScript, HTML, CSS, and Bootstrap. Experienced in developing role-based systems, implementing CRUD functionality and business logic, integrating databases, and creating responsive user interfaces. Skilled at translating user requirements into functional and user-friendly web solutions, with additional experience in mobile application development and UI/UX implementation. Detail-oriented and adaptable, with a focus on clean, maintainable code and reliable application development.

Technical Skills

- Frontend: HTML5, CSS3, JavaScript, Bootstrap, Blade.
- Backend: PHP, Laravel.
- Database: MySQL.
- Version Control: Git, GitHub.
- Programming & Development: Kotlin, C#, Unity.
- Design & Tools: Figma, Android Studio, Microsoft Office.

Soft Skills

- Critical Thinking.
- Problem Solving.
- Communication.
- Teamwork.
- Time Management.
- Attention to Detail.
- Adaptability.

Projects

Web-Based Cemetery Management and Public Service Information System

Feb 2026 – May 2026

Associated with Universitas Negeri Padang

- Developed a responsive, database-driven web application using PHP, Laravel, MySQL, Blade, Bootstrap, HTML, CSS, and JavaScript.
- Designed and implemented role-based access control (RBAC) for administrators, TPU staff, government officials, and heirs.
- Developed CRUD functionality for cemetery data, burial records, and service requests.
- Implemented rule-based business logic to prioritize burial requests based on predefined criteria.
- Designed responsive user interfaces to provide accessible and user-friendly experiences across different screen sizes.

Cemetery Management Mobile App – Android

Mar 2025 – May 2025

Associated with Universitas Negeri Padang

- Developed an Android-based cemetery information and management application using Kotlin and Android Studio.
- Implemented mobile interfaces, interactive navigation, and multiple functional screens based on Figma UI/UX designs.
- Developed features for accessing cemetery information, burial data, and deceased records through a structured mobile interface.
- Applied Android development, UI/UX implementation, and Kotlin programming to create a user-friendly mobile application.

EcoQuest – Biology Educational Quiz Game

Sep 2025 – Nov 2025

Associated with Universitas Negeri Padang

- Developed a 2D educational game using Unity and C# to support biology learning for junior high school students.
- Designed user interfaces and interactive learning activities to create an engaging user experience.
- Applied game-based learning and educational technology concepts in the development of the project.

Work Experience

Intern – Library Data Management Assistant

Jan 2026 - Mar 2026

Universias Negeri Padang Library

- Managed and maintained records for 1,000+ books, ensuring data accuracy and consistency.
- Performed data entry, validation, verification, and updating of library records.
- Used Microsoft Excel to organize and process large volumes of data.

Informatics Teacher

July 2025 - Dec 2025

Ekasakti Senior High School, Padang

- Delivered Informatics lessons covering computer skills and basic programming concepts.
- Guided students through practical computer activities and programming exercises.
- Developed communication, problem-solving, and technical presentation skills through classroom instruction.

Education

Universitas Negeri Padang

2022 – 2026

Bachelor's degree, Computer Science Education

Grade: 3.55 of 4.00
